Lastname 15130	Firstname 15130	Prednisone 5 MG	318	120	198	37.74

How To Read This Report

This report lists all patients that have not been filling their refills on time

Required Dose Days -- # of days the patient should have had filled

Supplied Dose Days -- # of days the patient actually had filled at your pharmacy

Missed Dose Days -- # of days the patient has missed.

Adherence % -- A low percentage indicates that intervention is needed

What should I do with this Information?

Step 1 : Review the rx in the dispensary system

Step 2 : Determine whether the patient should be contacted for a medcheck or is a candidate for a Pharmaceutical Opinion

Step 3 : Offer them compliance packaging,

Step 4: Offer them Dosage Reminders.

Step 5: Consider them for med synchronization

Step 6: Determine why the patient is not compliant and fix.

How will doing this help my Business and my Patients?

Better patient outcomes

Opportunity to deliver cognitive services to your patients
